Peaceful Activism Set To Launch Saturday 19.01.19

Summary:
France started it - and now the Yellow Vest movement is launching in Australia. Various Aussie groups have decided to work together peacefully to bring to Australia the one key goal of the Yellow Vests - Citizen Initiated Referendum. The key to bringing the power of democracy back to the people. If it's good enough for the Swiss it's good enough for all of us.

Australia to join worldwide Yellow Vest Movement

First nationwide gathering Saturday 19th of January - see below for details.

BRN is very pleased to see a coalition developing that will lead to people shaking off the chains that bind them - the chains of party political corruption and debt slavery. How will this happen?

Right around the world citizens are realising that there is a criminal system in place that is stealing the time and wealth of the people. In France the Yellow Vest movement is changing politics. It is the

same everywhere. Action is already taking place in the UK, Canada, Europe, Taiwan and America.

The simple message is that the people have the real power ..... and people are sick of being manipulated & robbed by two party dictatorships that masquerade as a democracy while serving elite interests.

People are waking up to the reality that the elite control the media and education system. Keeping the masses ignorant has always been important to lock in control over them.

Like BRN - the movement aims to educate and motivate people to take massive and effective action at just the right time.

We have been in touch with Yellow Vest Australia and France. Their spokespeople want Aussies to know what this movement stands for -

1. It is not party political. Parties are a major part of the problem all nations are facing. The aim of the movement is to bring political power back to the people.

2. It is not about engaging in the game the elite run to keep us divided. Race, religion, colour, man, woman, sexuality, left, right, democrat, republican, liberal, labor - all are abused by the elite to keep us divided and fighting among ourselves.

While we are kept busy, frightened and distracted the elite continue to run the game with their rules. We want a new game with our rules.

We are all people with very similar needs and desires. Most of us just want a fair go building a good life for our families in a peaceful country.

We don't want to be fleeced and overworked to keep the elite enjoying a lifestyle they have not earned and do not deserve.

We do not want unreasonable taxes and government interference limiting our freedoms and rights.

3. The movement is peaceful and not violent. All protestors are encouraged to spread the word respectfully, diligently and cleverly. Any protestor wearing a yellow vest is not a genuine part of the movement if they promote or engage in violence and vandalism. Those that promote hate and vicious nationalism also are imposters or government agents trying to discredit the movement.

The police and military are supposed to be protectors of the people. If we treat them with respect they will realise we are in this together. We are all citizens of this great country and we should be able to rely on each other to help bring about a better way of life for our families and friends by working together peacefully.

4. The Yellow Vest movement advocates one key policy - Citizen Initiated Referendum - CIR (RIC in France). This one change opens the door to help us: weed out political & corporate corruption; bring about finance system reforms; and a host of programs & policies that are in our country's and people's interests.

Of course fundamental rights and responsibilities go along with CIR - See **HERE** for one model we have previously advocated for.

Bank Reform Now salutes France's Roman Light who has very successfully worked with people right around the world to bring the Yellow Vest message to millions of interested and concerned people >> www.youtube.com/watch?v=cck2IzCkIns&feature=youtu.be

We will be helping Aussies from now until the 2019 Election to identify politicians that agree with CIR and the types of reforms it will bring to our country - including reforms to the financial system.

EVENT CALENDAR - CHECK **HERE** for gatherings in your region - if there isn't one set one up.

We are extremely happy to collaborate with the nine Yellow Vest Australia groups and the International effort. There are no leaders. This is about citizens, families and voters who want to make Australia Fair Again - co-operating peacefully. Let's show the world the Aussie way of building a system where everyone can get a fair go.

The people have the power ..... and now is the time to use it.

Note: BRN does not condone violence or extremism. Each group involved is responsible to see to it that the agreed tone, ethos and methods of the movement are clearly communicated to all interested parties. Only peaceful co-operation will show all Australians that they are being diddled by the elite with government assistance. Only then can solutions be sensibly discussed. While some groups prefer a more aggressive and harsh approach they must be convinced that we need to be united to avoid the movement's failure.
